Assemmacher Specialty Tools Warranty

(Effective date: Jan. 1, 2008)

Warranty durations run from the date of documented purchase (the day of purchase by the end user).

All returns must be accompanied by original sales receipt.

AST shall not be liable for any injury, loss or damage, consequential or special, arising out of the use of, or the inability to use the product.

AST Products carry a 5 year warranty with the exceptions stipulated below:

Sockets marked "For Hand Use Only", will not be warranted if damaged by use with a Power Tool.

Stud Removers: Body; 7 year warranty.

AST Stud Removers produced between 2000-2008 are under warranty. If the external body is damaged please return the stud remover for warranty.

If only the internal parts of the stud puller need replacing, simply call and specify the AST product number of the stud puller. If the production date is in the range 2000-2008, we will send out internal replacement parts at no charge.

Internal Stud Remover parts are replaceable. The following list indicates replacement numbers for the internal parts.

Stud Remover Size	Internal Parts Kit Number; Contains; Cage, 3 Rollers, Clip & Washer
6mm	60
8mm	80
10mm	100
12mm	120
1/4"	250
5/16"	312
3/8"	375
7/16"	437
1/2"	500
9/16"	562
5/8"	625

Service Reset Tools have a 2 year warranty.

Sets and Kits: If only one item is defective, that item will be replaced, not the entire set. If only a part on a tool is defective, (i.e. gasket, rubber band, etc.) only the part will be replaced.

Cooling System Adapters with plastic tester attachment piece; may be repairable for a nominal fee.

Defective products should be sent freight prepaid to AST for inspection. Warranty is handled by replacing the defective item. AST will only cover UPS/Ground return shipping, to the customer, for warranty items.
